THE WESTMEAD FEELINGS PROGRAM 2

The Westmead Feeling Program 2 (WFP 2) teaches children with autism spectrum disorder (ASD) with no accompanying intellectual impairment the power of emotion recognition, perspective-taking, problems-solving and emotion regulation skills. This is a 15 month intervention program run over 3 x 5 week periods. There is a caregiver and teacher training component and works best when delivered inclusively across all environments.

Program Outline

Westmead Feeling Program 2

The Westmead Feeling Program 2 (WFP 2) is a 15-month intervention program developed by The Children's Hospital at Westmead and published by ACER. The program teaches emotion recognition, perspective-taking, problem-solving and emotion regulation skills to children aged 8 to 14 years old with autism spectrum disorder (ASD) without accompanying intellectual impairment.

WFP 2 is aimed at children with fluent speech who are able to read and write.
